Ecological Solutions

Recycled Materials

Melplas

Recycled polyethylene is an eco-friendly material option. It's obtained by reprocessing waste plastics, conserving natural resources, and reducing waste. At Melplas, we utilize this valuable resource in sustainable production. By using recycled polyethylene in our products, we commit to protecting our planet while maintaining quality. Join us, let's work together for a greener future.

Melplas

30 Years of Innovation and Quality

Our company began production in 1991 and has continued to serve with the principles of honesty, quality, and reliability it adopted since its inception. Melplas initially started its operations with the production of Grocery Bags (Luxury Bags) and later expanded to producing Nylon Bags, Shrink Nylon, Roll Nylon, Plastic Paper, Crinkly Bags, and Wrapping Base Bags.

With an ever-growing customer base, our company continues its efforts to provide quality products and services and diversifies its product portfolio based on customer demand. To deliver better and higher-quality service, we moved to our new facility in Turkey in 2010, which has a covered area of 4500 m² and a total space of 5000 m².

With over 30 years of experience, Melplas closely follows industry developments while manufacturing in line with customer expectations. Constantly improving and making new investments, our company aims to be a leader in the industry.

Our Service Quality

Melplas collaborates with its customers on a scientific basis, offering high-quality products specially developed according to the varied needs of different clients, all with a unique service understanding. With the synergy and dynamism created by its customers, suppliers, professional human resources, and innovative management, Melplas aims to offer excellent products and services in the future as well.

Therefore, Melplas strives to establish long-term cooperation and open communication with its customers and suppliers, not only in the light of its corporate governance understanding but also under the fundamental human values that are part of mutual trust and social responsibility programs.

Global Reach

At Melplas, we recognize that the world is interconnected, and our commitment to excellence knows no bounds. Since our establishment, we have been dedicated to expanding our reach beyond Turkey, embracing the global market with open arms.

Our international presence is a testament to our adaptability, quality, and innovation. We have successfully forged partnerships with businesses across continents, ensuring that our high-quality plastic products are accessible to a diverse clientele.

In pursuit of global excellence, we have tailored our products and services to meet the unique needs and regulations of different regions. Our devoted international team works tirelessly to understand local market dynamics, cultural nuances, and customer preferences, thereby offering customized solutions that resonate with our global audience.

Join us in shaping the future of packaging, one country at a time. Melplas is not just a brand; it's a global promise in quality, innovation, and sustainability.

Melplas: Offers

Melplas: Offers customized, high-quality products tailored to meet the unique needs of every customer. With our innovative approach and excellence-driven service philosophy, shape your future with us. Quality, trust, and sustainability start here!
